

AT2035-Studio : The Essential Studio Kit

Audio-Technica has teamed up with Audient to provide the ultimate Project Studio Recording Kit, the AT2035-Studio, that features the AT2035 condenser microphone, ATH-M40x studio monitoring headphones and the Audient iD4 Black USB audio interface. This is an exclusive bundle with two major pro-audio brands Audio-Technica and Audient.

The AT2035 large diaphragm condenser microphone and ATH-M40x studio monitor headphones in the AT2035-Studio pack have been specially selected to provide professional quality studio production from the moment you open the box and plug in. The wide dynamic range of the AT2035 pairs perfectly with the class-A console mic pre of the Audient iD4 Black USB audio interface to provide a smooth, natural detailed sound, which can be heard perfectly through the extended frequency response of the ATH-M40x headphones.

The AT2035-Studio allows you to be perfectly connected to your creativity using the highest quality products. Ideal for home recording, this bundle is ideal for a mobile studio on location. It also allows musicians and bands to record their sessions in one take or multitrack with overdubbing.

Key Product Features.

AT-2035: Cardioid Condenser Microphone

Designed for critical home/project/professional studio applications and live performance, the AT2035 delivers exceptional detail and low noise.

- Large diaphragm for smooth, natural sound and low noise
- High SPL handling and wide dynamic range provide unmatched versatility
